Design Approach - Mood Board

Standard Values in Our Design:

- Unconventional
- Pushing Boundaries
- Evolving

Catering to a young, generation of working professionals.

Post Pandemic Considerations:

- Clean Environment
- Open Space
- Contactless Check-in

"It's about believing passionately in bringing experiences to life in our hotels that have never been brought to life before."

Stairs

Architectural Components Design

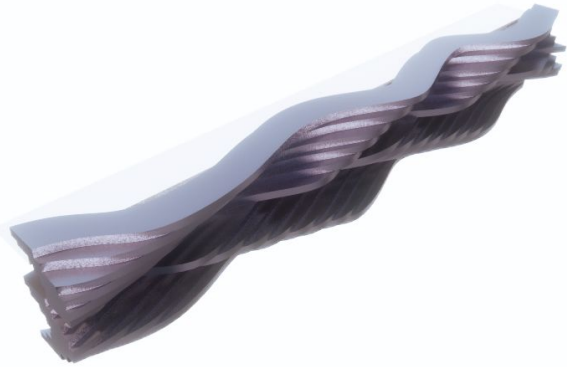

Grand Stairway

The grand stairway was created from 3 patterns that used wrapped, undulating, and folded shapes that were delicately layered to create a flowing staircase.

From the patterns we got a 3 dimensional set of languages that connect with the rest of the lobby design. The glass guardrail has a sleek metal handrail that curves around the shape of the stairs.
